

Classification of Cerebral Palsy – online learning module

Distance-based online module

In this course we explore the current systems used to classify the movement disorders of cerebral palsy and the evidence to support their use will be examined. Detailed information regarding the various classifications of cerebral palsy will be analysed. Examples of the different classifications are presented in both video and written materials.

The course runs from 13th July - 23rd August 2020

Course cost: \$550 inc. GST,
plus booking fees.

Registrations via:

<https://www.trybooking.com/book/event?eid=564125&>

The course has been developed to allow participants to work at your own pace. The time commitment will vary for each participant dependent on their previous knowledge of cerebral palsy; however each participant can expect to spend a minimum of 30 hours of study to complete the online module.

Who is this course suitable for:

Physiotherapists, Occupational Therapists, and Speech therapists.

Lead Tutor:

Kelly Reynolds, Bobath PT Tutor (ABNDDTA) and supported by the ABNDDTA teaching team consisting of OT, SP and PT tutors

Please note that this module forms part of the Foundation Course for Paediatric Therapists, and completion of this course online will be credited to overall ABNDDTA Certification.

*Full registration must be paid for this course, and the rebate is applied when you register for the second course component.
